DETAILED ACTION

Applicant's election of Group I(a), drawn to method of treating by administering an active agent, claims 1-10, in Paper No. 3 is acknowledged. Because applicant did not distinctly and specifically point out any errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 11-25 are non-elected.

Claims 1-10 are pending and presented for examination.

Priority

The claimed priority of this application to US Application No. 09/654,357, filed on September 01, 2000, now US Patent No. 6,384,087 is acknowledged.

The undersigned Examiner supports the goal of the Office to advance prosecution as expeditiously as is reasonably possible. Co-operation is requested with respect to the timely submission of any references deemed pertinent to the present application along with Form PTO-1449.

Specification objection

The disclosure is objected to because of the following informalities:

Art Unit: 1617

On page 1 of the specification, line 8 of the first paragraph, Applicants must insert "now US Patent No. 6,384,087 B1" following the phrase "filed September 1, 2000", and the phrase "now allowed" should be deleted.

Appropriate correction is required.

Double Patenting rejection

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1-2 and 4-10 are rejected under **35 U.S.C. 101** as claiming the same invention as that of claims 1-9 of prior U.S. Patent No. 6,384,087 B1. This is a double patenting rejection.

Conclusion

Claims 1-2 and 4-10 are rejected.

Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
